

# Dahle 554 Rolling Trimmer

Dahle Professional Series

The Dahle 554 Professional Rolling Trimmer with a 28 1/4" cutting length is designed for precision and accuracy. It features a ground self-sharpening blade, an automatic clamp to prevent shifting, and a metal base for durability. This German engineered cutter is ultra-precise and ideal for trimming paper, photographs, and cardstock.

## SELF-SHARPENING

This trimmer features a self-sharpening cutting system. No need to worry about replacing dull or worn blades, this system sharpens as you cut to maintain a perfectly honed edge. The blade's precision graduated edge will remove even the tiniest sliver of paper, and produce a clean, burr free cut.

## AUTOMATIC CLAMP

Holding your work securely by hand is no longer necessary. The trimmer's

integrated, automatic clamping system provides even pressure that prevents your work from shifting.

## METAL BASE

For durability, this German engineered trimmer features a sturdy metal base. It's a solid foundation that will never warp or crack.

## ALIGNMENT GUIDES

For measuring, the base contains carefully screened inch and metric guides to help align your cuts.

Dahle's 554 Professional Rolling Trimmer is a popular choice among professional photographers, print shops, and graphic design agencies.
