

PaperSAFE®

Oil free. Shredders

DAHLE®

The most convenient way to destroy confidential information

PaperSAFE® are oil-free shredders by Dahle that offer best-in-class features and noise reduction to support a productive work environment.

Oil-Free Shredding

Wondering when your shredder was last oiled is no longer a concern. Through clever engineering, these machines maintain peak performance without oil. PaperSAFE® shredders are not only convenient to use and economical to maintain, but also easier on the environment.

Whisper Quiet

PaperSAFE® features Whisper Quiet operation that produces the lowest decibel levels in their class. They're perfect for shredding in a quiet office and not disturbing others nearby or on the phone.

Jam Protection

With built-in jam protection, these shredders prevent frustrating paper jams. If sheet capacity is exceeded, the motor automatically stops and reverses to push the paper back out.

Convenience

Most models feature automatic on/off, bin-full auto off, and energy saving standby mode to make these shredders convenient to use, easy to maintain, and environmentally friendly.
