German
Engineered

The Dahle 448s Premium Rolling Trimmer with a 51 1/8" cutting length is designed for precision trimming of thicker material. It features a ground self-sharpening blade, an extruded aluminum guide bar for strength, and an automatic clamp to prevent shifting. It includes a space-saving stand to ensure optimal cutting height. This German engineered cutter is ultra-precise and ideal for trimming paper, cardstock, and matboard.

SELF-SHARPENING

This trimmer features a self-sharpening cutting system. No need to worry about replacing dull or worn blades, this system sharpens as you cut to maintain a perfectly honed edge. The blade's precision graduated edge will remove even the tiniest sliver of paper, and produce a clean, burr free cut.

AUTOMATIC CLAMP

Holding your work securely by hand is no longer necessary. The trimmer's integrated, automatic clamping system provides even pressure that prevents your work from shifting.

METAL BASE

For durability, this German engineered trimmer features a sturdy metal base. It's a solid foundation that will never warp or crack.

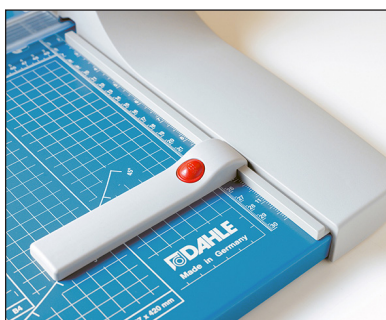

ALIGNMENT GUIDES

For measuring, the base contains carefully screened inch and metric guides to help align your cuts.

Dahle's 448s Premium Rolling Trimmer is a popular choice among professional photographers, print shops, and graphic design agencies.

Product Features

- Self-sharpening blade cuts in both directions
- Extruded aluminum guide bar for strength in trimming thicker material
- Automatic clamp holds work securely and prevents shifting
- German engineered for precision and accuracy
- Includes space-saving steel stand with paper catch for optimal cutting height
- Ground steel blade is encased in protective housing for safety
- Sturdy metal base provides a solid foundation
- Screened rulers and grid for easy alignment
- Perfect for trimming paper, photographs, cardstock, and matboard

Adjustable guide can be mounted on either side of the trimmer to easily line up repetitive cuts.

Features a ground self-sharpening rotary blade that cuts in either direction.
