Perfect for Many Applications

- In the home, school, and office
- For paper, photo paper, card stock, and fabric

Sore, tired fingers are a thing of the past with Dahle's Comfort Grip Scissors. The ergonomic, soft handles provide a soothing surface for your fingers. The 40026 is a 6" scissor ideal for fine trimming.

Soft, Contoured Handles

The handles of Vantage® Comfort Grip Scissors have a soft, rubber-like coating in all the right places. This material prevents chafing during repetitive cutting and provides a no-slip grip for your fingers.

Stainless Steel Blades

The double ground blades are made of stainless steel that resists rust and wear. Both blades are honed for sharpness and cut all the way to the tip for fine trimming.

Screw Fastened

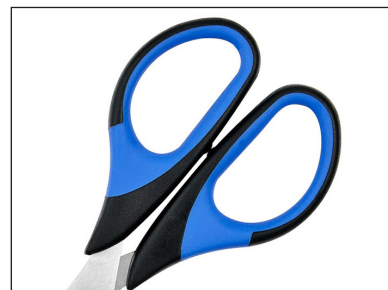

The screw-fastened blades allow you to adjust them to your personal preference. Loosen them for thicker materials or tighten them for more delicate, precise cutting.

Versatile

Dahle's Comfort Grip Scissors are designed to accommodate your trimming needs and comfort. They can easily cut through paper, fabric, and card stock and are guaranteed to produce a clean cut each and every time.

Double ground blades are screw fastened & able to cut through thicker materials.

Soft cushioning is gentle on the hands & reduces fatigue when continually cutting.
