

Dahle 558 Rolling Trimmer

Dahle Professional Series

The Dahle 558 Professional Rolling Trimmer with a 51 1/8" cutting length is designed for precision and accuracy. It features a ground self-sharpening blade, an automatic clamp to prevent shifting, and a metal base for durability. This German engineered cutter is ultra-precise and ideal for trimming paper, photographs, and cardstock.

SELF-SHARPENING

This trimmer features a self-sharpening cutting system. No need to worry about replacing dull or worn blades, this system sharpens as you cut to maintain a perfectly honed edge. The blade's precision graduated edge will remove even the tiniest sliver of paper, and produce a clean, burr free cut.

AUTOMATIC CLAMP

Holding your work securely by hand is no longer necessary. The trimmer's

integrated, automatic clamping system provides even pressure that prevents your work from shifting.

METAL BASE

For durability, this German engineered trimmer features a sturdy metal base. It's a solid foundation that will never warp or crack.

ALIGNMENT GUIDES

For measuring, the base contains carefully screened inch and metric guides to help align your cuts.

Dahle's 558 Professional Rolling Trimmer is a popular choice among professional photographers, print shops, and graphic design agencies.
