Data Security

Dahle North America, Inc.

DAHLE®

Why Choose Dahle?

Need - Recent events have made shredding confidential information a necessity. Documents found in the trash are not legally protected so they're fair game to individuals looking to find out more information about you and your business. This explains the rapid increase in identity theft and industrial espionage. Federal security laws require that medical and financial institutions as well as business owners must

properly safeguard their client's personal information. What's the best way to dispose of this information? Shred it with a Dahle Professional Shredder.

Quality - Dahle shredders are carefully engineered in Germany by Novus Dahle GmbH using the latest technology and finest materials. Each component is manufactured and assembled with precision

from over 89 years of experience. Dahle shredders feature cutting cylinders that are guaranteed to last a lifetime. Other components such as rubber shock mounts, electronic sensors, and a thermally protected motor produce a quality machine and peace of mind in knowing your Dahle shredder will provide many years of trouble-free operation.

Number of Users

It's best to choose a shredder category based on the expected number of users. When making a selection, it's important to factor in anticipated company growth. While a certain size may satisfy your current needs, purchasing with the future in mind will benefit you in the long run.

Security Levels

Under the international DIN 66399 standard, Dahle offers six security levels for document destruction. Each increase in security level represents a smaller particle (shred) size. It's important to note that a shredder with a greater security level will offer a lower sheet capacity compared to a lesser security model. Be sure to understand your company's security requirements before making a selection.

	Deskside 1 User Recommended		Small Office 1-3 Users Recommended		Office 3-5 Users Recommended		Department 5+ Users Recommended		High Capacity 5+ Users Recommended
--	--	--	---	--	---	--	--	--	---

	P-2 For destruction of non-confidential documents		P-4 (most popular) For destruction of sensitive & confidential documents		P-6 For destruction of highly secret documents
	P-3 For destruction of sensitive documents		P-5 For destruction of secret documents		P-7 NSA Approved for top-secret data destruction

Dahle Shredders

Professional Shredders for Document Destruction

Secure information should never fall into the wrong hands. Dahle shredders are your best line of defense in preventing unauthorized access to secure information. Whether it's personal credit card statements or Top Secret government documents, Dahle has a shredder that will meet your needs.

*Sheet capacity will vary depending on paper size, weight, quality, and sufficient power

Dahle PowerTEC

Industrial shredders for all media types

Shredding only paper is no longer enough. Sensitive information on digital devices is also a security risk. These ultra-powerful machines take data destruction to the next level by destroying paper and digital devices including hard drives, cell phones, SSD drives, and more.

Media Types

Paper

Optical Media

2.5"-3.5" Hard Drives

SSD Drives

Mini Tablets / Phones

USB Drives

Cards, Clips, Staples

Special Features

NSA Approved

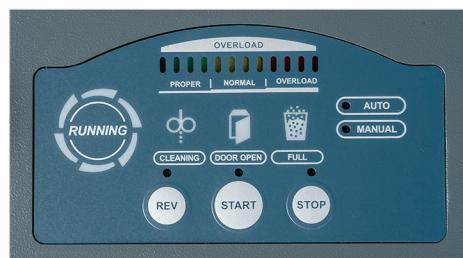

Chain Driven

EvenFlow Lubricator

Jam Protection

Self Cleaning

Precision Engineered

PowerTEC 700 Series

High Security Data Destruction

Dahle's PowerTEC 700 Series shredders are NSA Approved for top-secret destruction of paper and optical media. They are precision engineered to support the high security shredding needs of military and government agencies.

PowerTEC 800 Series

For Hard Drive / SSD / Cell Phone / Optical Media / Document Destruction

Dahle's PowerTEC 800 Series shredders are the perfect machines for safely destroying paper and most forms of digital media. They are precision engineered to ensure your confidential data can never be seen again.

PowerTEC 900 Series

High Volume Data Destruction

Dahle's PowerTEC 900 Series Industrial Shredders are high capacity machines capable of destroying large volumes of sensitive information quickly. For added convenience, output conveyor belts are available to deliver shredded waste to a large recycling bin or baler.
